

Amine Faraji

Hey all, I am Amine Faraji a BA student preparing a bachelor in finance and marketing. It is not by chance that I applied to be an RA, I highly value the service that the housing is providing in order to make students' residential life a wonderful experience, and to turn the buildings into a community where residents share not only rooms, but knowledge, fun, and activities.

Now it is my third semester as an RA in building 32, and I just love assisting residents and helping them.

An RA is a friend in the first place; also a mediator, an advisor and simply it can be you. Please feel free to contact me for any reason, and you don't need a visa to join the 32 Community.

32 is not just a building it is a lifestyle.
