

## **Dounya Barrit**

I'm Dounya Barrit the resident assistant of building 34. This is my first semester as an RA and I "am loving It". I am an Engineering and Management student and this is my 8<sup>th</sup> semester at AUI. I like being present when people need help. I'm always happy to assess people, support them or simply get to know them. I like languages, cooking, music and a lot more, but I'm also ready to try new things and make plenty of different experiences. So, if you would like to join me in this journey, you are more than welcome to knock on the door of room 207 building 34 or call this extension: 2958. I think, Building 34 is the house of the majority of the residents. So let's make this place "the home" and the residents "the family" and make everyone want to stay there forever!!!
