

Driss El Alami

I am Driss El Alami, 21 years old, senior student at Al Akhawayn University. I am majoring in finance and doing a minor in computer sciences, still have two other semesters to go. Far from my studies, I am a sport addicted and a basketball fun. In fact I am really proud to represent my university by being its captain of basketball team. Also, I am the treasurer of Rotaract Clud, one of my best experiences ever. it is a unique opportunity where you can help people in need and make wonderful friends. I just enjoy my time there.

Besides all that, I am really honored to be part of the resident assistant family and be responsible of Bldg 36. We are here, as RA's, to play a key role in creating an environment for you that is conductive to academic, personal and social growth. We are your friend, counselor, peer advisor, and mentor. Never hesitate to ask for me or one of my friends, we will be more than glad to help.

Driss El Alami
