

## Hassan Hijazi Hajouj

My Name is Hassan Hijazi Hajouj aka (also known as) H-Cubed or  $H^3$ . Too many names I guess ☺ but I am still the friendly Hassan. This is my second semester as an RA, my first building was building 30, and now Building 21, everyone's favorite. What's special about building 21 is that most residents have been here at least a few semesters and everyone is friends with one other. I am not a RA who makes all residents follow rules and regulations, I am here to make friends and have fun with everyone regardless of time.

Many AUIers know me sometimes thinking I am “L’Mkadim Dyal 7awma” but if you want to still know me more my extension is 2302 room 4 in building 21 ☺. Life on campus has been never the same after the Crazy residents have taken over campus. Organizing Mixed Dorm to Paintball and much more, students are now much more involved in the resident life. All activities organized by the RAs are intended to unite the whole campus life together where everyone is friends with one another and everyone is welcome to suggest any new activities. Building 21 will never be the same, and it will not just be your campus room, but its residents will be your family members!!!!
