Career Events

AIESEC Training Sessions:

A training session about AIESEC took place on Monday 16, 2006. The training was done by Zainab Hardoumi, an IHEM alumnus who is preparing her master at AUI. She is an active AIESEC member, who will supervise the creation of AIESEC AUI Chapter. The objective of this first training was to have an overview about the AIESEC identity & Vision. Most AUI students are interested by having international internships. However the AUI AIESEC chapter can be officially operational only in one year. During this year, members are trained on how to become AIESEC members. They attend conferences and participate actively in AIESEC Activities. This is why AUI students should be more motivated by attending AIESEC trainings! Another training will take place after the

midterm break in preparation of the "Séminaire National de Nomination et de Motivation" which will take place in Casablanca around end of November beginning of December.

Alumni News

CONDOLENCES:

Yassine El Gueddari, an AUI alumnus passed away: What a Loss!

"It's with great pain and regret that we came to know that Yassine is not one of us anymore. We want to express our condolences to his family, friends and classmates. Joyful and naive, generous and available, his presence certainly made a difference at AUI during those long years. A person who is easy to accept and trust, but it is truly hard to let him go, and realize that he's not around anymore. What a sad truth and harsh reality we wake up to".

Truly shocked,
Hamid Chbouki, an AUI Alumnus
